Les Ecoles Scientifiques - Temara
•Degree: With Highest Honors

SOUK EL HAD — HOUSE OF CRAFTS AND TRADITIONS

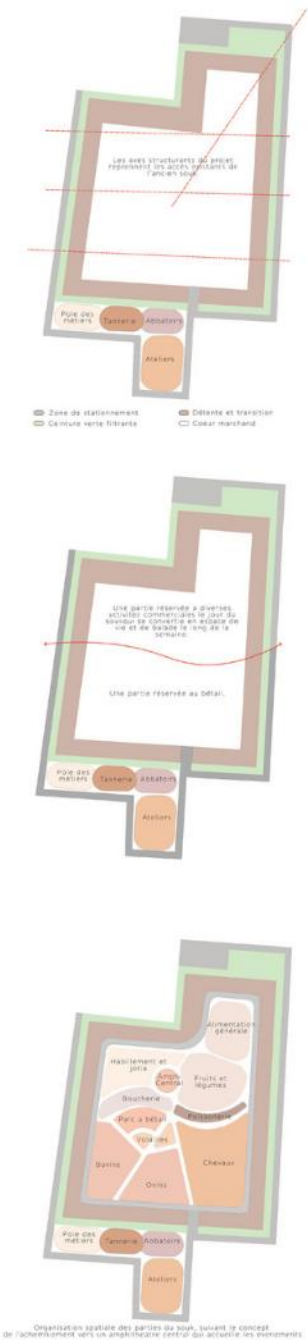

Réhabilitation of Souk El Had in Settat and design of a School of Crafts and Tbourida.

The project is located south of Settat; along the national road and immediately adjacent to the industrial zone.

It seeks to reconcile the city's industrial, academic and commercial role by creating economy among the project's different components.

Axono éclatée

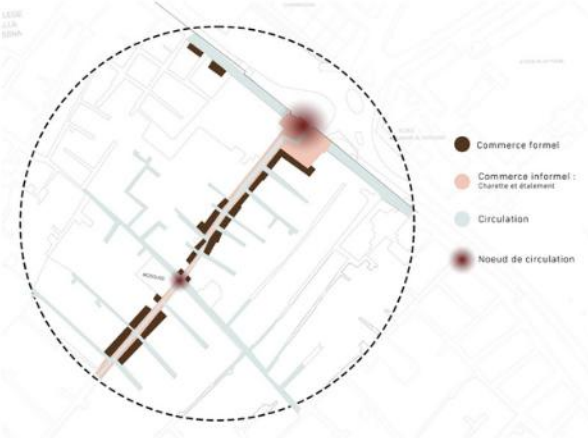

DAR AL-MIRAGE

The project creates a link between Salé's old Medina and the new Urban fabric of Sidi Moussa.

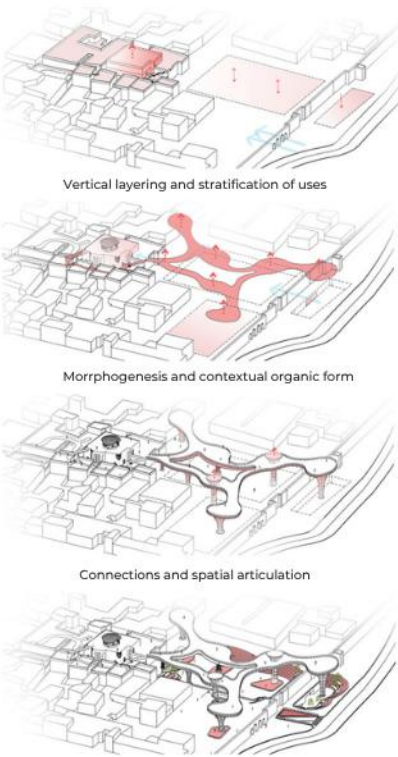

Site Location

The occupation of public space by carts and stalls causes overcrowding in the Medina's narrow streets.
